Our Core Values

Excellence in Market & Quality

● OUR STORY

In our story, every smile created with Noyan represents more than freshness and beauty it is a symbol of strength, confidence, and a renewed quality of life. Noyan grows alongside dental professionals, much like a green seedling nurtured by knowledge, commitment, and shared excellence. Through trusted partnerships, education, and quality-driven solutions, we support clinicians in creating lasting results for their patients. Each implant represents a new beginning a foundation for confidence, vitality, and the freedom to smile without hesitation.

● OUR HISTORY

Backed by more than five decades of experience from the Omid Group across diverse industrial and commercial sectors, Noyan was established in 2020 to operate in the dental equipment market. From its inception, the company adopted a structured and expertise-based approach, engaging with selected European and South Korean manufacturers to develop long-term and exclusive partnerships. Through systematic evaluations supported by academic consultants and clinical professionals, Noyan laid the groundwork for collaboration with internationally recognized brands. The name “Noyan,” meaning freshness and vitality, reflects the company’s identity and its commitment to consistency, reliability, and professional growth.

● OUR VISION FOR THE FUTURE

Leveraging decades of experience and expertise from the Omid Group’s industrial and commercial sectors, Noyan aspires to become one of Iran’s leading and most trusted companies in the dental implant field. Our vision is driven by a strong commitment to quality, the development of reliable educational networks, and the delivery of trusted, value-driven services to dental professionals.

OUR LEADERSHIP & TEAM

foundation of sustainable success. Our professional team brings together industry expertise, clinical insight, and operational excellence, working in close coordination to deliver reliable dental implant solutions. Driven by commitment and shared responsibility, we continuously refine our processes to meet the evolving needs of our partners and the professional dental community. With over half a century of experience across diverse industrial and commercial sectors including automotive, oil and gas, steel, construction, and water industries—the Omid Group has established a strong reputation for expertise and innovation.

● RESISTA – ITALIAN EXCELLENCE IN DENTAL IMPLANTS

Resista offers a comprehensive range of 100% Made in Italy dental implants, featuring various geometries and both internal and external connections to meet diverse implant-prosthetic needs. Driven by passion and a deep understanding of dentists' requirements, Resista has enabled the development of effective, reliable solutions that support the growth of dental practices.

Our system is unique, simplified, and cost-effective. With a larger prosthetic screw and hybrid surface treatment, Resista implants allow dentists to perform immediate loading procedures safely, efficiently, and predictably, while minimizing inflammatory risks.

Noyan proudly serves as the exclusive representative of RESISTA Group in Iran, a brand backed by more than 75 years of excellence in the dental industry.
